

The Iridium 9555 gives you the freedom to stay connected where normal mobile phones don't work. Simply ensure you have a clear view of the sky and the satellites above, deploy the retractable antenna, dial the number, and press call. You can send and receive SMS, access your voicemail, store numbers in the phonebook and customise your phone settings, just like you would with a standard mobile phone.

FEATURES

- 📱 Compact design for portability
- ✓ Intuitive user interface for out-of-box functionality
- ★ Integrated speaker phone
- 💬 SMS messaging capability
- 🌐 Utilises the Iridium network - the only truly global mobile satellite service

WHY PIVOTEL?

- Standard 04XX mobile numbers
- No complex dialing rules with low satellite call rates
- Make calls within your fleet at standard call-to-mobile rates
- Dedicated customer care specialists based in Australia

COVERAGE

Iridium uses the cross-linked architecture of its global constellation of Low Earth Orbit (LEO) communication satellites to provide the only truly global mobile satellite service.

WHAT'S IN THE BOX?

- Iridium 9555 Handset with Battery
- User Guide

Satellite phone accessories available for the Iridium 9555. Accessories sold seperately.

HANDS-FREE VEHICLE KIT

The Pivotel IR-HF-9555 hands-free car kit provides hands-free communication for your Iridium 9555 handset. Equipped with an automatic stereo muting feature and car ignition connection, this is a ready-to-go in vehicle solution. With its cutting edge background noise filter and echo cancelling technology, the IR-HF-9555 hands-free car kit offers unmatched quality in satellite communication!

Includes -

- 9555 docking cradle
- Hands-free microphone and speaker
- Electronics module
- Mini magnetic patch antenna with 6 m cable

Also Available -

- Optional privacy handset
- Optional whip antenna to mount on vehicle bull bar

HANDS-FREE DESKTOP DOCK

The Pivotel Desktop Dock for the Iridium 9555 is ideal for remote locations and portable site offices. It is efficiently designed to lay on a flat surface and blend into any professional environment or command centre. While in hands free mode it is great for conference calling, using the built in loudspeaker. The Desktop Dock provides the benefits of a fixed phone with a portability option! Since the dock is charging your satellite phone, you will have a fully charged phone ready to be used either at your command post or when you are out in the field.

Includes -

- 9555 docking cradle
- Privacy handset

Also Available -

- Optional mini magnetic patch antenna with 6 m cable
- Optional longer cable
