Satellite phone accessories available for the Iridium Extreme. Accessories sold separately.

HANDS-FREE VEHICLE KIT

Designed for in-vehicle use across harsh terrains, the IR-HF-9575 car kit is the ideal partner for the Iridium Extreme phone delivering class leading reliability and voice quality. When linked with the TracerTrak tracking application the phone and carkit can be used to monitor the location and movements of the equipped vehicle to provide unparalleled visibility of remote workers and associated communications compliance.

Includes -

- Extreme docking cradle
- Hands-free microphone and speaker
- Electronics module
- Mini magnetic patch antenna with 6 m cable

Also Available -

- Optional privacy handset
- Optional whip antenna to mount on vehicle bull bar

HANDS-FREE DESKTOP DOCK

The Pivotel Desktop Dock for the Iridium Extreme is ideal for remote locations and portable site offices. It is efficiently designed to lay on a flat surface and blend into any professional environment or command centre. While in hands-free mode it is great for conference calling, using the built-in loudspeaker. The Desktop Dock provides the benefits of a fixed phone with a portability option! Since the dock is charging your satellite phone, you will have a fully charged phone ready to be used either at your command post or when you are out in the field.

Includes -

- Extreme docking cradle
- Privacy handset

Also Available -

- Optional mini magnetic patch antenna with 6 m cable
- Optional longer cable
